AKSHAY BAVISKAR

Software Developer

Nashik, Maharashtra _baviskarakshay0702@gmail.com | (+91) 9172140702 | GitHub | LinkedIn

SUMMARY

Motivated Software Developer with strong foundation in Java, Spring Boot, and MySQL, dedicated to creating scalable, efficient applications. Knowledge in Linux system administration, troubleshooting, and enterprise-grade software solutions. Hands-on experience with microservices architecture, Docker, and REST APIs. Certified in Java and Spring Boot, with a demonstrated ability to contribute to impactful software projects. Eager to collaborate with dynamic teams to drive digital innovation.

PROJECTS

E-Commerce Application- Github

- Built a full-fledged e-commerce platform with Spring Boot and MySQL.
- Features include user authentication, product management, and order handling.

CareerConnect - Job Services Platform- Github

- Architected a job listing and service registration platform using Spring MVC, Spring Boot, and Docker for seamless scalability.
- Integrated microservices for dynamic job listings and company reviews, boosting user engagement.

Booklt.io - Train Ticket Booking Application- Github

- Developed a scalable train ticketing platform using Spring Boot and Microservices architecture.
- Deployed via Docker and tested for robustness, enhancing efficiency and user experience.

SKILLS

- Languages: Java, SQL
- Frameworks: Spring Boot, Spring MVC, Spring Data JPA
- Tools: Docker, Git, Maven, IntelliJ IDEA, Postman, JUnit, Mockito
- Databases: MySQL
- Concepts: Microservices, REST APIs, OOP

CERTIFICATIONS & TRAINING

Java & Spring Boot Certification - Telusko

Hewlett Packard Enterprise Software Engineering Job Simulation – Forage (Sept 2024)

- Built a RESTful web service for employee management using Spring Boot.
- Developed a web server to handle HTTP requests and JSON data uploads.
- Created and executed unit tests to evaluate application performance.

Wells Fargo Software Engineering Job Simulation – Forage (May 2024)

- Designed an Entity Relationship Diagram (ERD) for financial portfolio management.
- Implemented and published the ERD using IntelliJ IDEA.

EDUCATION

Bachelor of Computer Science

2019 - 2022
